5 PROMPTS TO START A DOODLE DRAWING

Draw a Circle

*just put the pen or pencil to the paper and draw a circle.
Then - expand it or fill it in - whatever you think feels best!*

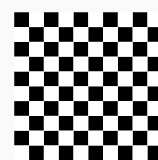

Symmetry is Key

*Draw a line down the center. Whatever you do to one side,
do to another. Most symmetrical things look cool.*

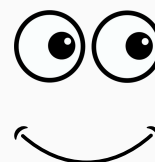

Pick a Pattern

*Whether you pick a simple spiral or checkerboard pattern,
playing around with it is a great strategy when doodling.*

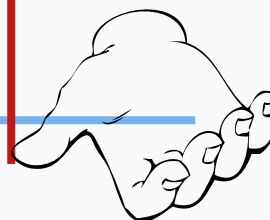

Faces and Eyes

*Make some weird characters. Draw eyes the way you like
drawing eyes, same goes for the mouth and nose.*

Let the Hand Lead

Try not to think! Just start drawing and let your hand lead the way!
